

THE MAN BEHIND THE MUSIC

Ken "DJ Khaos" Padgett has fine-tuned a sought after style that's taken generations of listeners on a musical journey spanning multiple genres. Born in South Carolina, his time in the military helped add to his diverse library of music. After pledging in college, he became known as DJ Khaos for his eclectic mixes that would include song selections unexpected but always appreciated. This bit of chaos is what you experience in every set. At first glance, one might guess him to be an accountant but, after he steps behind the turntable, it becomes apparent why he's known as DJ Khaos. The word of mouth generated from his nightlife, corporate, and wedding events have paved the way for touring, radio, and television opportunities. For Professional DJ services, experience Khaos for yourself.
